POLL MERINOS

Flock Number
Yanta 601451

Due to previous AI results no AI was done this season, 2021. However two rams born in 2018 from AI are very impressive. One from Glenlea Park 001739 anther from Poll Boonoke 150026. Both Rams have been used in the stud this year.

We still rigorously class all sheep for structure and conformation correctness, and place a strong emphasis on nourished, white, stylish elite wool.

Top priced Poll Merino Ram - purchased by Mark Noonan of Hornsdale for \$2200.

WE AIM TO BREED GOOD RAMS FOR A REASONABLE COST PRICE.

WELCOME

Its nice to start this newsletter with wool prices much improved from this time last year and are on the up. A great positive has been the prices received for red meat especially for those selling Crossbred and Merino lambs.

SIRE PURCHASES

Yanta Sheep Studs has recently acquired the top priced ram from the Mernowie Poll Merino Sale for \$13,500. Tag 19 is sired by Kamora Park 304 (winner of the Fibre Meat class at the 2009 Royal Adelaide Show), weighed 106 kilograms and had 20.5-micron wool with 99.5 per cent comfort factor and ASBVs of 7.7 yearling weight, 26.4 yearling clean fleece weight, 0.28 yearling eye muscle depth. The ram has a lustrous, long stapled wool on a very correct body with a very breedy outlook. It also carried the double poll gene with excellent ASBVs.

We also purchased a White Suffolk ram from Ashmore. Ashmore 190218 was purchased for \$8200 at the Ashmore on-property sale. Son of Ella Matta 170300. Great type, terrific topline, lovely carcase with good hindquarter combined with balanced numbers.

MERINO WOOL GROWTH & PRESENTATION

This year has been particularly challenging with no summer feed and a late break to the season. The opening rain came near the end of May, so green feed has struggled to get ahead. However with a green pick and supplementary feeding, the sale rams are developing well with attractive wool quality. I will provide ASBVs on all rams to help in assessment of them. All sires have been progeny tested and hence have high accuracy for the important traits I value.

HELMSMAN SELLING SYSTEM

This year we are using the Helmsman system to sell our MERINO RAMS. Refer to insert Flyer.

The White Suffock auction will begin at 2pm
A light luncheon will be provided

Last year instead of the Wudinna Ram expo, on property displays were had. My display featured some rams that were the same age as other studs sale rams. Visitors gave very favourable comments on these in particular. I have since decided that my July/August drop rams are too young to take to Wudinna.
